

constructions have been on the rise in Delhi and other metropolitan cities during the last few years. In Delhi, a special drive has been launched to check these illegal constructions. The Ministry of Urban Development is impressing upon the local authorities to ensure full compliance of building bye-laws and planning norms set out in the Delhi Master Plan. It is also monitoring the results of the drive. In some cases, blatant illegal construction in connivance with the local officials has been noticed. The CBI has been asked to enquire into these cases.

In respect of other metropolitan cities, action has to be taken by the local bodies concerned/State Governments. No precise information is available in this regard. However, in the meeting of State Ministers for Urban Development and Local Self Government, convened by the Union Urban Development Minister on January 17, 2000, the rising menace of land and building 'mafia' in the metropolitan cities of the States was specifically brought to the notice of the State Governments and they were advised to take firm action against the illegal builders and ensure full compliance of building by-laws and planning norms and regulations.
